Bio

A web-developer and eclectic electronic music practitioner from the Netherlands. My interest in web development started with creating my artist website, leading me to pursue web coding courses and turn my passion into a profession.

I have organised and played in many parties and benefits throughout Europe.
In November a vinyl will be released of tracks produced over the years: white label

Work Experience

FREELANCE WEB-DEVELOPER since 2021

Web development, web design, design logo's, stickers, flyers etc. Technical helpdesk. Main focus: security, speed and user-friendliness for the disabled web-user. I write in the languages HTML, CSS, Javascript and I am developing my skills now in Liquid and Go. Working in plain static files, with Static Site Generators (SSG) like Jekyll or with dynamic builders like Wordpress.

Selection of projects:

manifestations.nl   Fix speed, fix errors, fix functional design, fix static subsites, ongoing

esasofi.com   SSG Jekyll, Github   clarasaito.com   Redesign, SSG Hugo, Github

vicci.nu   SSG Hugo, Github   b'ker.eu   Redesign in Elementor, WP, ongoing

interactyf.nl   Design in Divi, WP   laughinghearts.nl   Redesign in Elementor, WP

headofme.com   Design in Wix   kattelijntje.nl   Redesign in Elementor, WP

boostpaint.com   Rebranding: domain & email migration, design logo, Wordpress to Shopify
